i am a truck driver and i just wanted to stress that the weather and traffic reports are very,very important to myself and others in my line of work.see some people dont understand that trucking companys provide a service that we all need and use .we deliver things to stores that everyone needs and uses on a daily basis such as food,tolities and etc.if you remove the weather and traffic channel you will be hurting America cause "if you got it a trucker brought it "trucks move America .andif theres an accident that ties up an interstate or a road i need to be on and i dont know about it before i get there i cant detour and deliver my load on time.and this brings me to my next point if i am delayed and have to sit in a traffic jam this also causes me to use more fuel than i would have intentionally this cause rising prices in stores where you shop.SO ON BEHALF OF MYSELF AND OTHER DRIVERS I M ASKING PLEASE KEEP OUR WEATHER AND TRAFFIC CHANNEL AVALIABE TO US IT KEEPS US MOVING
THANK YOU SINCERLY, DAVID PUCKETT
